POOL TABLES

Quality in every table.

Legacy Billiards Tables Exceed All Expectations

1 The Perfect Corner

Square cabinets and flush panels are essential in providing perfect play for every billiard table. The patented Perfect Corner design guarantees each table assembly will be perfectly square. This design provides the strongest cabinet corner support of any billiard brand in the industry.

2 Solid Hardwood

Every table Legacy Billiards manufactures, in the Legacy series, is constructed from solid hardwood. No MDF, plywood, scrap wood or metal plates. Hardwoods are used in the cabinets, legs, top-rails, blinds and cross-beam slate supports. Our pool tables are unsurpassed in quality in the billiard table industry.

3 Hand Carved Legs

Each carved table leg starts as a single block of seasoned solid hardwood and is carefully hand carved by a master craftsman. Each table leg is a functional work of art.

4 Old World Joinery Techniques

Legacy uses construction techniques that have stood the test of time. Our experience in the furniture industry carries over to our pool tables to provide you with a family heirloom that will last for generations.

5 Fortress Power Lock™

Legacy Billiards' rails are secured to the slate using our exclusive Fortress Power Lock. An oversized t-nut fastener is securely held into the rail by a solid hardwood core to tightly hold the extreme torque of the rail bolts onto the table. This design has been tested to 2,000 lbs. of torque and is 80% stronger than threaded inserts or other fasteners used by other table manufacturers.

6 Hand Inlaid Sights

All sight locations on every Legacy Billiards pool table are precision cut for perfect consistency. Mother-of-pearl sights are hand picked, inlaid and sanded to ensure a smooth finish.

7 Exact Shot™ Cushions

Our K-66 profile natural gum-rubber cushions feature a relief groove. The groove adds 30% more surface area for the rubber to bond to the top rail. This design provides perfect alignment to the top rail resulting in superior ball speed, accuracy and overall improved game play. Exact Shot cushions carry a lifetime warranty.

8 Durable Leather Pockets

Legacy leather pockets are finished with a quality dye to coordinate with our wood finishes. The leather is steeped into the dye allowing for the desired color. With this process, the leather's inherent beauty will keep its luster and will endure scratches from normal play for the life of the table.

9 Quality Slate

Legacy Billiards uses three-piece, one-inch backed slate on all billiard tables. Each piece of slate is diamond honed, precision-cut and ground to within five-thousandths of an inch to ensure a level surface. We take no shortcuts in detail or quality.

10 The Finishing Touch

Legacy Billiards' factory uses many custom finishes and options for billiard and furniture products. All solid wood products are finished at the same time to produce a higher-end finish consistency. The result is a Legacy table of unsurpassed quality, beauty and endurance.
