URBAN LEGACY DESIGN

# Design

For more than a decade, design lovers and industry insiders have looked to Legacy Billiards as a leader in the trend towards classic, modern and traditional design. Now, Legacy Billiards is poised to dazzle the industry again with our most ambitious and inspired work to date - a new billiard line, Urban Legacy Design.

Today, the look du jour is no longer relevant. Having style and grace means embodying a sense of chairmanship, quality and timelessness - something honest and beautiful. The Urban Legacy Collection embodies this spirit and meets this demand.

A unique set of influences—from mid-century design to old world craftsmanship—come together to form an eclectic and versatile billiard line. Beautiful form paired with multi-function design, make these pieces ideal for small spaces.

Boardroom to Playroom. Taking a break from the stresses of the day has never been easier or looked better.

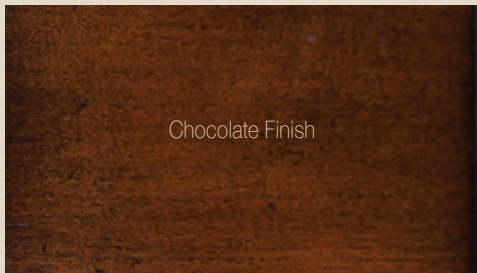

# Finishes

Material Inspired design. The Urban Legacy Collection is contemporary crafted. It's urban, it's modern, it's classic, but most of all it is quality. The materials guarantee it. Legacy Billiards knows that each piece is only as good as the sum of its parts. The eclecticism of Urban Legacy ensures that there's a piece for everyone.

### Belle Billiard Table

It's a show stopping, sleek and sexy, stainless steel table that looks amazing as a dining table or a state of the art billiard table. Available in your choice of 6-foot or 7-foot models that can easily accommodate up to 8 guests as a dining table when adding our coordinated seating. The 7-foot features 1-inch thick diamond honed slate. Built strong with a stainless steel frame construction, but has delicate features like flush mesh drop pockets, and round pearl sites.

### Dining Top

Transform your game room into your dining room in just a few minutes using the rigid, matching solid hardwood dining top. Only you will know there is a billiard table waiting underneath. Dining Top Sold Separately.

Emphasis has been put on cutting edge design and materials crossover. In order to offer a billiard table which fits the most demanding interiors, stainless steel and wood are associated to uncluttered lines that improve the functionality of small spaces while bringing more play and fun into your busy lifestyle.
